The "drummers" of the great importing and manufacturing firms are flocking back to New York, their holiday season ended. Alive to the possibilities of the situation the Palais Royal representatives have been after the no-longer-needed samples. They will dot the Christmas stocks here tomorrow, as gold mines do the mountains.

### Best of Leather Goods

Samples from John Mehl, the leading makers, and C. F. Rumpp, the leading importers of the United States. Their "drummers" are many, and each carried samples of the vast variety controlled by these famous firms. Enough to fill two great tables and long center counter. Articles of leather, samples of those retailing everywhere at \$1 to \$25, are to be here tomorrow at 59c to \$10. For details see below.

\$1.00 to \$2.50 Pieces

## 59c and 79c

Name Stamped Free

For "her," at 59c instead of \$1 to \$1.25, are the new top strap and back strap pocketbooks, with gilt and oxidized frames, fitted with new patent snap fastening. The leathers are dyed to match the prevailing dress shades of browns, blues, greens, black, etc.

For "him," at 59c instead of \$1 to \$1.25, are three-fold cases for bills and cards, leather lined. These are the wear-resisting cases men like, especially when the name is attached.

For "her," at 79c instead of \$1.50 to \$2.00, are the new Hand Bags, with strap back and patent snap fastening to the double or single flap. Think of only 59c and 79c for such pieces, stamped with the recipient's name and inclosed in attractive box.

The "gems" of the world's most exquisite "leather goods" are in the lot at \$7.50 and \$10 for choice. Look for Them—Filling the Entire Right Aisle Facing G Street Door

Until yesterday afternoon Art Nouveau pieces, in various metals, occupied this aisle. These have been removed to "Tiffany room" and the lately received samples of Bric-a-brac are to take their place. The few illustrations here are really not indicative of the variety, which embraces samples of the season's most attractive pottery of Europe, Asia, and America. 49c to \$1.98 is to suffice for samples of the best \$1 to \$5 Bric-a-brac.

In the 49c Lot

### Samples Only of Best Makes of Waists, Values Up to \$3.50, at 98c for Choice

Samples of Waists made to retail at \$1.50 to \$3.50 at only 98c for choice. Boxes will be furnished—as long as the supply does. Take elevator to third floor—be one of Monday's early visitors, among those who will get the best bargains.

We were all bitterly disappointed yesterday—the morning hours were devoted to the children, and special attractions and coupons were featured. Of course, the weather was too terribly bad for very many to respond—it was astonishing how many did brave the elements. It will be joyful news for the children—that the same special attractions and the Saturday morning coupons are to be good for tomorrow morning—until the gong sounds at midday.
